

# Debris Contract Line Item Index

The Debris Contract Line Item Index was created to help provide local governments with suggested line items to include in pre-positioned debris contracts. This list is not all-inclusive of all situations that a local government may need for their debris operations. This is broken down into four sections; Right-of-Way, PPDR/CPDR, Demolition, and Titled Property.

**Description:** The suggested line item.

**Radius:** The radius for hauling the debris.

**Unit:** The suggested unit of measurement to calculate reimbursement.
