3. **Allowable Planning & Program Development Costs**: Integrating non-governmental entities into the planning process is critical to achieve comprehensive community preparedness. To meet this important objective, HSGP funds may be used to support the following:
   
   - Establishing and sustaining bodies to serve as Citizen Corps Councils;
   - Assuring that State and local government homeland security strategies, policies, guidance, plans, and evaluations include a greater emphasis on government/non-governmental collaboration, citizen preparedness, and volunteer participation;
   - Developing and implementing a community preparedness strategy for the State/local jurisdiction;
   - Developing or reproducing accessible public education and outreach materials to: increase citizen preparedness and knowledge of protective actions (to include the national Ready Campaign materials); promote training, exercise, and volunteer opportunities; and inform the public about emergency plans, evacuation routes, shelter locations, and public alerts/warnings.
All public education and outreach materials must include the national or jurisdiction’s Citizen Corps logo, tagline or website or the Ready logo, tagline, or website and comply with logo standards. For more information go to http://www.citizencorps.gov. In addition, all public education and outreach materials should incorporate special needs considerations, to include language, content, and method of communication.

**Allowable expenditures include:**
- Media campaigns: Public Service Announcements (PSAs), camera ready materials, website support, and newsletters
- Outreach activities and public events: Booth displays, event backdrops or signs, displays and demonstrations, utilizing translation services, and informational materials such as brochures/flyers
- Promotional materials: Pens/pencils, pins, patches, magnets, souvenir clothing/headwear, etc. Expenditures for promotional items must not exceed 15 percent of the total Citizen Corps Program allocation (see CCP Equipment for information on equipment caps)
- Establishing, expanding, and maintaining volunteer programs and volunteer recruitment efforts that support disaster preparedness and/or response.

Citizen support for emergency responders is critical through year-round volunteer programs and as surge capacity in disaster response. Citizen Corps funding may be used to establish, expand, or maintain volunteer programs that support disaster preparedness and/or response including but not limited to: Neighborhood Watch/USAonWatch, Community Emergency Response Teams (CERT), Volunteers in Police Service (VIPS), Medical Reserve Corps (MRC), Fire Corps, Citizen Corps Affiliate Programs and Organizations, and jurisdiction specific volunteer efforts

**Allowable expenditures include:**
- Recruiting, screening, and training volunteers (e.g., background checks)
- Retaining, recognizing, and motivating volunteers (e.g., volunteer recognition items such as certificates or plaques)
- Purchasing, maintaining, or subscribing to a system to track volunteers (to include identification and credentialing systems, and to track volunteer hours) and other available resources in compliance with applicable privacy laws
- Necessary non-structural accommodations to include persons with special needs (e.g., sign language interpreters)
- Evaluating volunteers
- Organizational activities supported with CCP funding are limited to 25 percent of the grantee's CCP funding. Organizational activities include hiring of full or part-time staff or contractors for emergency management activities.

4. **Allowable Equipment Costs:** States and Urban Areas are encouraged to fully leverage all HSGP resources for equipment to support volunteer personnel in preparedness and response. All allowable equipment costs are listed in the AEL, available at https://www.rkb.us.

Any equipment purchased with CCP funding must be used for specific preparedness or volunteer training or by volunteers in carrying out their response functions. CCP funding is intended only to be used for specific preparedness or volunteer training or by trained volunteers in carrying out their response functions. Examples of equipment used to support training and exercises for citizens include items such as burn pans or sample preparedness kits.

Expenditures for kits used in volunteer response (e.g., CERT or MRC kits /backpacks) or clothing for official identification must not exceed 30 percent of the total Citizen Corps Program allocation. Clothing for official identification includes those items that volunteers are required to wear when engaging in public safety activities or disaster response (e.g., t-shirts for CERT members, baseball caps for Neighborhood Watch/USAonWatch Program foot patrol members).

**Allowable Training Costs** Allowable training-related costs include, but are not limited to, the following:
- Developing, Delivering, and Evaluating Training – Includes costs related to administering the training, planning, scheduling, facilities, materials and supplies, reproduction of materials, and equipment.
- Overtime and Backfill – The entire amount of overtime costs, including payments related to backfilling personnel, which are the direct result of attendance at FEMA and/or approved training
courses and programs, are allowable. These costs are allowed only to the extent the payment for such services is in accordance with the policies of the State or unit(s) of local government and has the approval of the State or the awarding agency, whichever is applicable. In no case is dual compensation allowable. That is, an employee of a unit of government may not receive compensation from their unit or agency of government AND from an award for a single period of time (e.g., 1:00 p.m. to 5:00 p.m.), even though such work may benefit both activities.

- **Travel** – Costs (e.g., airfare, mileage, per diem, hotel) are allowable as expenses by employees who are on travel status for official business related to approved training.

- **Hiring of Full or Part-Time Staff or Contractors/Consultants** – Payment of salaries and fringe benefits to full or part-time staff or contractors/consultants must be in accordance with the policies of the State or unit(s) of local government and have the approval of the State or awarding agency, whichever is applicable. Such costs must be included within the funding allowed for program management personnel expenses, which must not exceed 15 percent of the total allocation as specified in section E.6. In no case is dual compensation allowable (see above).

- **Certification/Recertification of Instructors** – States are encouraged to follow the FEMA Instructor Quality Assurance Program to ensure a minimum level of competency and corresponding levels of evaluation of student learning. This is particularly important for those courses that involve training of trainers. This information is contained in Information Bulletin #193, issued October 20, 2005.

6. **Allowable Exercise Cost:** Exercises specifically designed for or that include participation from non-governmental entities and the general public are allowable activities and may include testing public warning systems, evacuation/shelter in-place capabilities, family/school/business preparedness, and participating in table-top or full scale emergency responder exercises at the local, State, tribal, territorial, or national level, to include the National Level Exercises (formally known as Top Officials Exercise [TOPOFF]).

- **Allowable Exercise Costs include:**
  - **Funds Used to Design, Develop, Conduct, and Evaluate an Exercise**
    - Includes costs related to planning, meeting space and other meeting costs, facilitation costs, materials and supplies, travel, and documentation. Grantees are encouraged to use government facilities to conduct meetings and conferences whenever possible.
  - **Hiring of Full or Part-Time Staff or Contractors/Consultants** – Full or part-time staff may be hired to support exercise-related activities. Such costs must be included within the funding allowed for program management personnel expenses, which must not exceed 15 percent of the total allocation. The applicant's formal written procurement policy or the Federal Acquisition Regulations (FAR) – whichever is more stringent – must be followed. In no case is dual compensation allowable.
  - **Overtime and Backfill** – The entire amount of overtime costs, including payments related to backfilling personnel, which are the direct result of time spent on the design, development, and conduct of exercises are allowable expenses. These costs are allowed only to the extent the payment for such services is in accordance with the policies of the State or unit(s) of local government and has the approval of the State or the awarding agency, whichever is applicable. In no case is dual compensation allowable. That is, an employee of a unit of government may not receive compensation from their unit or agency of government AND from an award for a single period of time (e.g., 1:00 p.m. to 5:00 p.m.), even though such work may benefit both activities.
  - **Travel** – Travel costs are allowable as expenses by employees who are on travel status for official business related to the planning and conduct of exercise project(s) or HSEEP programmatic requirements as described in the HSEEP website (e.g., Improvement Plan Workshops, Training and Exercise Plan).
  - **Supplies** – Supplies are items that are expended or consumed during the course of the planning and conduct of the exercise project(s) (e.g., copying paper, gloves, tape, non-sterile masks, and disposable protective equipment).
  - **Other Items** – These costs include the rental of equipment (e.g., portable toilets, tents), food, gasoline, exercise signs, badges, etc.

- **Unauthorized Exercise-related Costs Include:**
  - Reimbursement for the maintenance and/or wear and tear costs of general use vehicles (e.g., construction vehicles) and emergency response apparatus (e.g., fire trucks, ambulances).
  - Equipment that is purchased for permanent installation and/or use, beyond the scope of exercise conduct (e.g., electronic messaging signs).
