

TABLE OF CONTENTS

I.	Introduction	Page
1.0	General.....	1-1
1.1	Purpose of this Student Manual.....	1-1
1.2	Development of a Comprehensive Shelter Strategy.....	1-3
1.3	Contents and Organization.....	1-8
1.4	Overview of Hurricane Evacuation Shelter Selection Process.....	1-8
1.5	Qualifications of Surveyors.....	1-12
II.	The Hurricane Environment and Effects on Buildings	
2.0	General.....	2-1
2.1	The Hurricane Environment.....	2-1
2.2	Wind-Structure Interaction.....	2-5
2.3	Storm Surge-Structure Interaction.....	2-22
2.4	Rainfall Hazards.....	2-25
III.	Pre-Survey Screening	
3.0	General.....	3-1
3.1	Introductory Notices.....	3-1
3.2	Meeting with Pertinent Agencies/Individuals.....	3-1
3.3	Plans & Specifications Acquisition.....	3-2
3.4	Pre-Survey Checklist.....	3-2
	Part One:	
3.4.1	- Section 0 - Identification.....	3-3
3.4.2	- Section 1 - Storm Surge Inundation.....	3-5
3.4.3	- Section 2 - Rainfall Flooding/Dam Considerations.....	3-16
3.4.4	- Section 3 - Hazmat & NPP Considerations.....	3-26
	Part Three:	
3.4.5	- Section 0 - Identification.....	3-35
3.4.6	- Section 16 - Site Infrastructure (Optional).....	3-36
3.4.7	- Section 17 - Mass Care Characteristics (Optional).....	3-37
3.4.8	- Section 18 - Communications (Optional).....	3-40
IV.	Site Visit	
4.0	General.....	4-1
4.1	Windshield Drive-By.....	4-1
4.2	Plans & Specifications Review.....	4-1
4.3	Facility Visit.....	4-2
4.3.1	Complete Survey Checklist.....	4-2
	Part Two:	
4.3.1.1	- Section 0 - Identification.....	4-3

4.3.1.2	- Section 4 - Lay Down Hazard Exposure.....	4-4
4.3.1.3	- Section 5 - Wind and Debris Exposure.....	4-6
4.3.1.4	- Section 6 - Wind Design Verification.....	4-11
4.3.1.5	- Section 7 - Construction Type/ Loadpath Verification.....	4-15
4.3.1.6	- Section 8 - Building Condition/ Wind Damage History.....	4-21
4.3.1.7	- Section 9 - Exterior Wall Construction.....	4-24
4.3.1.8	- Section 10 - Fenestrations/ Window Protection.....	4-29
4.3.1.9	- Section 11 - Roof Construction/Slope.....	4-32
4.3.1.10	- Section 12 - Roof Open Span.....	4-44
4.3.1.11	- Section 13 - Roof Drainage/ Ponding Information.....	4-47
4.3.1.12	- Section 14 - Interior Safe Space.....	4-48
4.3.1.13	- Section 15 - Life Safety/ Emergency Power.....	4-50
4.3.2	Confirm Pre-Survey Data.....	4-52
V.	The Least-Risk Decision Making Process	
5.0	General.....	5-1
5.1	Preparation of Least-Risk Decision Making Table.....	5-1
5.2	Analysis of Least-Risk Decision Making Table.....	5-25
VI.	Sample Shelter Survey Report (Optional)	
6.0	General.....	6-1
6.1	Preparation of a Formal Report.....	6-1
6.2	Backup Documentation.....	6-3
6.3	Sample Retrofit Recommendations.....	6-4
Appendix		
Appendix A	- Mitigation Techniques for Marginal Buildings	
Appendix B	- Survey Checklist & Index	
Appendix C	- ARC 4496 - Guidelines for Hurricane Evacuation Shelter Selection	
Appendix D	- Blank Least-Risk Decision Making Table	
Appendix E	- Roof Construction Material Weights	
Appendix F	- Abbreviations	
Appendix G	- Definitions	
Appendix H	- Sample Completed LRDM Table, Survey Checklist, Documentation
