GOVERNOR SCOTT REQUESTS MAJOR DISASTER DECLARATION FOR PANHANDLE

~Disaster Declaration will aid Panhandle Counties in recovery from July severe storms and flooding~

Tallahassee – Governor Rick Scott made a request on Wednesday, July 24 to President Barack Obama for the State of Florida to receive a Major Disaster Declaration for Public Assistance to aid Florida counties impacted by flooding over the July 4 holiday week. An estimated $29 million of damage was caused to infrastructure across Panhandle communities when heavy rain fell the first week of July.

“The amount of rainfall caused significant damage to communities in the Florida Panhandle. Counties received damage which totals more than four times the county’s budget for roadway infrastructure for an entire year,” said Florida Division of Emergency Management Director (FDEM), Bryan W. Koon. “I am confident the federal government understands the financial impact this has on these communities and the importance of federal assistance to aid in the recovery.”

Bay, Holmes, Okaloosa, Walton and Washington counties received significant damage to homes, roadways, and infrastructure due to the rainfall received. Joint Preliminary Damage Assessments were conducted with representatives from the counties, the State and Federal Emergency Management Agency (FEMA). The estimated damage in the five county area totals $29,862,883.40. In Florida, the damage threshold for federal disaster relief assistance is $25,757,794.70. FEMA will review Governor Scott’s request and advise President Obama on next steps. If a declaration is made, Public Assistance would be granted to the declared counties. FEMA's Public Assistance program provides grant assistance for debris removal and emergency protective measures, as well as costs for repair, replacement, or restoration of disaster-damaged, publicly-owned facilities.

Areas of the Florida Panhandle received over twelve inches of rain between July 2-7. Walton and Washington Counties received nearly 20 inches of rain. Rivers in the Florida Panhandle reached flood stage, including the Choctawhatchee River in Walton County, which reached major flood stage.

Under the leadership of the Governor, FDEM Director Koon directed the State Emergency Response Team (SERT) to support the affected counties from the State Emergency Operations Center (SEOC), in accordance with the State of Florida’s emergency plan. Members of the SERT were deployed to assist the affected counties and to ensure a coordinated response to, and recovery from, this event.

For more information about emergency response in Florida, the 2013 Hurricane Season, and how you can Get A Plan! visit FloridaDisaster.org. Follow FDEM on Twitter at @FLSERT, on Facebook at Facebook.com/FloridaSERT and Facebook.com/KidsGetAPlan.

###
July 24, 2013

Mr. Major P. May, Regional Administrator
Federal Emergency Management Agency, Region IV
3003 Chamblee-Tucker Road,
Atlanta, GA 30341

Re: Request for Presidentially Declared Major Disaster Declaration
North Florida Severe Storms & Flooding Event (July 2013)

Dear Mr. May:

Attached is the Florida Division of Emergency Management’s request for a Presidentially Declared Major Disaster Declaration for forwarding to the President of the United States, pursuant to 44 CFR § 206.36. A copy of the attached request has also been forwarded by ground courier and should arrive in your office within a few days.

Please note that this declaration request is based on damage assessment numbers collected and agreed to by joint Preliminary Damage Assessment teams that worked in the affected areas between July 11 - July 17, 2013. As the joint PDA numbers from Bay County have since been called into question on technical grounds, the State of Florida would like to request a second round of joint PDAs in Bay County¹, in the event the President determines that Bay County should not be added to a Major Disaster Declaration at this time.

If you have any questions regarding this request, please do not hesitate to contact the Governor’s Authorized Representative, Director Bryan W. Koon, at (850) 413-9969.

Sincerely,

Bryan W. Koon, GAR
Division of Emergency Management

BWK/JH/er

Attachments: Request for Presidentially Declared Major Disaster Declaration

¹ Similar to the second round of Broward County joint PDA’s that was undertaken in 2012 after Hurricane Isaac
The Honorable Barack H. Obama  
President of the United States  
The White House  
1600 Pennsylvania Avenue, NW  
Washington, D.C. 20500

Through: Major P. May, Regional Administrator  
FEMA Region IV  
Atlanta, GA 30341

RE: Request for Major Disaster Declaration  
North Florida Severe Storms and Flooding Event - July 2013

Dear Mr. President:

Under the provisions of Section 401 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. §§ 5121-5207 (the “Stafford Act”), and implemented by 44 C.F.R. § 206.36, I request that you declare a major disaster for the State of Florida due to the impact of the North Florida Severe Storms and Flooding Event, beginning July 2 and ending July 7, 2013.

On July 2, 2013, a severe weather system developed over the Florida Panhandle producing heavy rain and severe thunderstorms, which resulted in riverine and overland flooding. This system affected the entire Florida Panhandle; however, the most damaging impacts were concentrated in the following counties: Bay, Holmes, Okaloosa, Walton, and Washington Counties. Rainfall totals for this disaster are as follows:

- Town of Inlet Beach (Walton County) – 19.6 inches.
- Town of Riverside (Washington County) – 18.5 inches.
- Town of Vernon (Walton County) – 15.0 inches.
- Eglin Air Force Base (Okaloosa County) – 15.0 inches.
- Town of Springfield (Bay County) – 13.4 inches.
- Town of Freeport (Walton County) – 12.8 inches.
- Town of Valparaiso (Okaloosa County) – 12.7 inches.
- City of Panama City Beach (Bay County) – 12.4 inches.
Additionally, river basins throughout the affected counties have experienced flooding, which has damaged homes, roadways, and utility infrastructure. Flood-stage readings measured as follows:

- The Choctawhatchee River reached major flood stage (17.6 feet) near the town of Bruce in Walton County.
- The Choctawhatchee River reached minor flood stage (14.5 feet) near the town of Caryville in Washington County.
- The Blackwater River reached minor flood stage (12.6 feet) near the town of Baker in Okaloosa County.
- The Shoal River reached minor flood stage (8.5 feet) near the town of Crestview in Okaloosa County.

In response to the situation, I have taken appropriate actions under State law and directed the execution of the State Comprehensive Emergency Management Plan (CEMP) on July 1, 2013 in order to ensure a coordinated response to, and recovery from, this event. The State Emergency Operations Center was not activated to a level 2 or higher for this event, as it was determined that it was imprudent to bear the cost of an increased level of activation in responding to this disaster. The State Emergency Operations Center maintains a 24-hour level 3 active watch status. The following information is furnished on the nature and amount of State and local resources that have been used to alleviate the conditions of this disaster in accordance with the CEMP:

- On July 1, 2013, a North Florida Severe Storms and Flooding Event database was established within EM Constellation in order to allow affected counties to request assistance in the form of missions from the State.
- Missions entered into the EM Constellation included requests for emergency protective supplies.
- The State Emergency Operations Center began hosting daily coordination calls between the impacted counties, the State Emergency Response Team (SERT), and the appropriate weather prediction services on July 2, 2013.
- Washington and Bay Counties opened shelters for displaced local residents on July 4, 2013.
- Due to flooding and standing water resulting from this disaster, the affected counties anticipate additional costs related to mosquito abatement. As a result, the affected counties have begun collecting data in order to certify that mosquito control measures are necessary.
A SERT liaison was deployed to the Washington County Emergency Operations Center in response to the County’s request for immediate state assistance on July 7, 2013.

On July 8, 2013, the State requested Joint Preliminary Damage Assessments (PDAs) for Public Assistance. Each PDA team consisted of county, Division of Emergency Management, and FEMA representatives. The results of the PDAs are attached as Enclosure A to this request. The totals shown therein represent an accurate summary of damage at this time that is otherwise-eligible under the Public Assistance program, and not covered by insurance. In the coming days, the State may submit additional requests for PDAs and further county designations for Federal assistance under both the Individual and Public Assistance programs.

The State of Florida is requesting a major disaster declaration for Bay, Holmes, Okaloosa, Walton, and Washington Counties. At this time, I am requesting that only Public Assistance be included within this Major Disaster Declaration request.

The counties affected by this disaster are rural. As such, their financial ability to provide effective response and recovery is impaired by a limited tax base from which to draw revenue for disaster-related repairs. For example, Washington County has an annual public works operating budget of approximately $2.24 million. Washington County sustained roadway damage of over $11.5 million. Accordingly, the county will exhaust their entire public works roadway construction and maintenance budget for the next four and one-half years to repair damage from this disaster. The damage in Washington County includes hundreds of miles of roads that will need to be rebuilt, filled, or resurfaced; hundreds of miles of swales that will need to be cleaned; and bridges, utility infrastructure, lift stations, and other water control devices that must be repaired. Similarly, Holmes and Walton Counties have annual budgets of approximately $2.3 million and sustained over $5.8 million and $10.9 million in road damage, respectively. The State is limited in its ability to provide assistance to the affected counties because it is still attempting to fund the approximately $92 million in unreimbursed or non-Federal share costs that were accrued as a result of disasters during the 2012 hurricane season.

The following information outlines the State of Florida’s 12-month disaster history and the extent to which the State has spent its own funds in responding to and recovering from these events:

- On July 3, 2012, President Obama issued a major disaster declaration for the State of Florida as a result of the effects of Tropical Storm Debby. Tropical Storm Debby affected over 1,000 homes in Florida and led to the implementation of Disaster Recovery Centers, Community Response Teams, and Disaster Loan Outreach Centers. PDAs revealed approximately $100 million in uninsured
damage. As of today, the recovery from Tropical Storm Debby continues. Approximately 1,116 project worksheets have been issued requesting over $69 million in assistance.

- From July 2012 through August 2012, the Big Bend region experienced near record rainfall, receiving over 30 inches within a 45-day period. During that same period, the Florida Panhandle received 15 to 25 inches of rainfall.
- Between August 26 and August 28, 2012, Hurricane Isaac brought torrential rain and flooding to inland and coastal areas in South Florida and the Panhandle. On October 18, 2012, President Obama issued a major disaster declaration for the State of Florida as a result of the effects of Hurricane Isaac. PDAs revealed approximately $45 million in uninsured damage eligible for Public Assistance reimbursement. As of today, the recovery from Hurricane Isaac continues. Approximately 326 project worksheets have been issued requesting over $25 million. Two counties impacted by the North Florida Severe Storms and Flooding Event—Bay and Okaloosa Counties—were declared for Public Assistance as a result of Hurricane Isaac.
- Hurricane Sandy impacted the State of Florida from October 25 through October 27, 2012. The State’s request for a major disaster declaration was denied. Hurricane Sandy resulted in approximately $67 million of otherwise-eligible damage, primarily to the State’s beaches.

I have designated Bryan W. Koon, Director of the Florida Division of Emergency Management, as the State Coordinating Officer for this request. He is authorized to provide any further information, assurances, requests, or justification on my behalf. Thank you for your consideration of this request.

Sincerely,

Rick Scott
Governor

Damage is still being assessed as of the date of this request and therefore, estimates of assistance required from Natural Resources Conservation Service (NRCS), Federal Highway Administration (FHWA), United States Army Corps of Engineers (USACE) and other Federal agency programs (in regard to both the amounts and locations) remain to be determined (TBD).
DEPARTMENT OF HOMELAND SECURITY
FEDERAL EMERGENCY MANAGEMENT AGENCY
REQUEST FOR PRESIDENTIAL DISASTER DECLARATION
MAJOR DISASTER OR EMERGENCY

1. Request Date: July 23, 2013

Burden Disclosure Notice
Public reporting burden for this form is estimated to average 9 hours per response. The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and submitting the form. This collection of information is required to obtain a benefit. You are not required to respond to this collection of information unless it displays a valid OMB control number. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing the burden to: Information Collections Management, Department of Homeland Security, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, Paperwork Reduction Project (1660-0000). NOTE: Do not send your completed form to this address.

Completion of this form including applicable attachments satisfies legal requirements for emergency and major disaster declaration requests under 42 U.S.C. §§ 5170 and 5191, respectively, as implemented at 44 C.F.R., §§ 206.35 and 206.36. Failure to use this form may result in a failure to meet these requirements and/or a delay in processing the request.

2a. Name of State (as defined in Stafford Act 102, 42 U.S.C. § 5122) or Indian tribal government requesting declaration.
State of Florida

2b. Population (as reported by 2010 Census) or estimated population of Indian tribal government’s damaged area(s).
18,801,310

3. Governor’s or Tribal Chief Executive’s Name
The Honorable Rick Scott, Governor

4. Designation of State or Tribal Coordinating Officer upon declaration (if available) and phone number.
Mr. Bryan Koon, Director - FL Division of Emergency Management (850) 413-9969

5. Designation of Governor’s Authorized Representative or Tribal Chief Executive Representative upon declaration (if available) and phone number.
Mr. Bryan Koon, Director - Florida Division of Emergency Management (850) 413-9969

6. Declaration Request For:
☑ Major Disaster (Stafford Act Sec. 401) ☐ Emergency (Stafford Act Sec. 501(a))

7. Incident Period: Beginning Date: July 2, 2013
End Date: July 7, 2013 or ☐ Continuing

7b. Type of Incident (Check all that apply)
☐ Drought ☐ Earthquake ☐ Explosion ☐ Fire ☒ Flood ☐ Hurricane ☐ Landslide ☐ Mudslide
☒ Severe Storm (rain, high water, wind-driven rain, hail, lightning)
☐ Snowstorm (Must include Enclosure D: Historic and Current Snowfall Data)
☐ Tidal Wave ☐ Tornado ☐ Tropical Depression ☐ Tropical Storm ☐ Tsunami ☐ Volcanic Eruption ☐ Winter Storm
☐ Other (please specify)

8. Description of damages (Short description of impacts of disaster on affected area and population). Include additional details in enclosed Governor’s or Tribal Chief Executive’s cover letter.
Please see cover letter.

9. Description of the nature and amount of State and local or Indian tribal government resources which have been or will be committed. Include additional details in enclosed Governor’s or Tribal Chief Executive’s cover letter.
Please see cover letter.
10. Joint Preliminary Damage Assessment

For the following jurisdictions, specify programs and areas (counties, parishes, independent cities; for Indian tribal government, list tribe(s) and/or tribal area(s)). If additional space is needed or your request includes different categories of work for different jurisdictions; please enclose additional documentation.

Request is for the full complement of PA programs throughout the following 5 counties: Bay, Holmes, Okaloosa, Walton & Washington counties.

For States, identify Federally-recognized Tribes included in the requested counties (if applicable). According to the Bureau of Indian Affairs map, there is no federally-recognized tribal land in the five counties for which this declaration is sought.

Please see Enclosure B: Supplemental Information for Public Assistance for additional information in support of this request.

Indemnification for Debris Removal Activity

☐ I do not anticipate the need for debris removal.

☒ I anticipate the need for debris removal, which poses an immediate threat to lives, public health and safety. Pursuant to Sections 304 and 407 of the Stafford Act, 42 U.S.C. §§ 5170b & 5173, the State or Indian tribal government agrees to indemnify and hold harmless the United States of America for any claims arising from the removal of debris or wreckage for this disaster. The State or Indian tribal government agrees that debris removal from public and private property will not occur until the landowner signs an unconditional authorization for the removal of debris.

Request for Direct Federal Assistance

☐ I do not request direct Federal assistance at this time.

☒ I request direct Federal assistance for work and services to save lives and protect property, and:

a. I request the following type(s) of assistance:
   DFA requested may include, but not necessarily be limited to:
   - US Army Corps of Engineers personnel to conduct road/bridge inspections and repairs, as well as to remove threats to navigation.

b. List of reasons why State and local or Indian tribal government cannot perform, or contract for, required work and services. The work listed above is of a highly specialized and/or technical nature. The State of Florida believes at this time that the need for road and bridge inspections due to this event will quickly overwhelm the available supply of qualified and/or certified roadway and bridge inspectors (97% of the eligible costs identified in the PDA process fall within Category "C" - roads and bridges).

c. In accordance with 44 C.F.R. § 206.208, the State or Indian tribal government agrees that it will, with respect to direct Federal assistance: (1) Provide without cost to the United States all lands, easements, and rights-of-ways necessary to accomplish the approved work; (2) Hold and save the United States free from damages due to the requested work, and shall indemnify the Federal Government against any claims arising from such work; (3) Provide reimbursement to FEMA for the non-Federal share of the cost of such work in accordance with the provisions of the FEMA-State or FEMA-tribe Agreement; and (4) Assist the performing Federal agency in all support and local jurisdictional matters.

Request for Snow Assistance

☒ N/A ☐ I request snow assistance.

Snow assistance for the following jurisdictions (Specify counties, independent cities or tribes and/or tribal areas).

Please see Enclosure D: Historic and Current Snowfall Data for additional information in support of this request.

*Not Required for Emergency Declaration Request
11. Programs and Areas Requested (Continued)

Hazard Mitigation*  □ Statewide  ☒ OR

For the following specific counties, parishes, independent cities or tribes and/or tribal areas.

12. Mitigation Plan Information*

a. Mitigation Plan Expiration Date  6/30/2014  

b. Type of Plan  ☒ Enhanced  □ Standard

13. Other Federal Agency Programs

□ I do not anticipate requirements from Other Federal Agencies  ☒ I do anticipate requirements from Other Federal Agencies

Please see Enclosure C: Requirements for Other Federal Agency Programs for additional information in support of this request*.

14. Findings and Certifications

□ I certify the following:

a. I have determined that this incident is of such severity and magnitude that effective response is beyond the capabilities of the State and the affected local government or Indian tribal government and that supplementary federal assistance is necessary.

b. In response to this incident, I have taken appropriate action under State or tribal law and have directed the execution of the State or Tribal Emergency Plan on  July 1, 2013  in accordance with the Stafford Act.

c. The State and local governments, or Indian tribal government will assume all applicable non-Federal share of costs required by the Stafford Act.
