

Building Resilient Infrastructure and Communities (BRIC) Program Fiscal Years 2024 & 2025 Notice of Funding Opportunity

The Florida Division of Emergency Management is pleased to announce the opening of the Building Resilient Infrastructure and Communities (BRIC) Program for Fiscal Years 2024 and 2025. Due to the limited maximum available funding per applicant (State), eligible entities that submitted a subapplication under the previously canceled FY 2024 BRIC application period and the FY 2023 subapplicants who received a “Not Selected” determination from FEMA are invited to re-submit the same projects for funding consideration under this opportunity.

The BRIC FY 2024 and FY 2023 (Not Selected) subapplicants will be contacted directly with an invitation to re-apply and information on the submission deadline and re-submitting the subapplications via the FEMA GO application system.

Key Program Changes

The BRIC program is designed to support proactive hazard mitigation efforts, with a focus on infrastructure projects that reduce long-term disaster risk and enhance community resilience.

- Maximum federal share per project is \$20 million (National Competition); phased projects are not eligible
- Capability-and capacity-building activities must directly support infrastructure resilience
- No funding for new or updated Hazard Mitigation Plans
- Simplified evaluation process (100-point scoring system)
- Increased emphasis on project readiness and implementation

Funding Overview

A total of \$1 billion in funding is available nationwide, supporting:

- Hazard mitigation projects
- Capability- and capacity-building activities tied to infrastructure resilience
- Management costs
- Building code adoption and enforcement initiatives

Funding is distributed across multiple categories, including:

- National Competition
- State/Territory Allocations
- Tribal Set-Aside

Note: No applicant (State) may receive more than 15% (\$150,000,000) of the total available funding across all categories.
