

COVID-19: summary of cases and monitoring

Data through May 23, 2021 verified as of May 24, 2021 at 09:25 AM

Data in this report are provisional and subject to change.

Cases: people with positive PCR or antigen test result

Total cases	2,311,941
Florida residents	2,268,729
Non-Florida residents	43,212

Type of testing

Florida residents	2,268,729
Positive by BPHL/CDC	82,928
Positive by commercial/hospital lab	2,185,801
PCR positive	1,806,046
Antigen positive	462,683
Non-Florida residents	43,212
Positive by BPHL/CDC	1,032
Positive by commercial/hospital lab	42,180
PCR positive	29,438
Antigen positive	13,774

Characteristics

Florida residents hospitalized	94,176
Florida resident deaths	36,501
Non-Florida resident deaths	734

Hospitalized counts include anyone who was hospitalized at some point during their illness. It does not reflect the number of people currently hospitalized.

More information on deaths identified through death certificate data is available on the National Center for Health Statistics website at www.cdc.gov/nchs/nvss/vsrr/COVID19/index.htm.

Cases: people with positive PCR or antigen test result

Risk factors for Florida residents

Traveled	18,258
Contact with a known case	911,490
Traveled and contact with a known case	24,671
Neither	1,314,310
No travel and no contact	276,631
Travel is unknown	733,894
Contact is unknown	505,444
Contact is pending	462,305

Travel can be unknown and contact can be unknown or pending for the same case, these numbers will sum to more than the "neither" total.

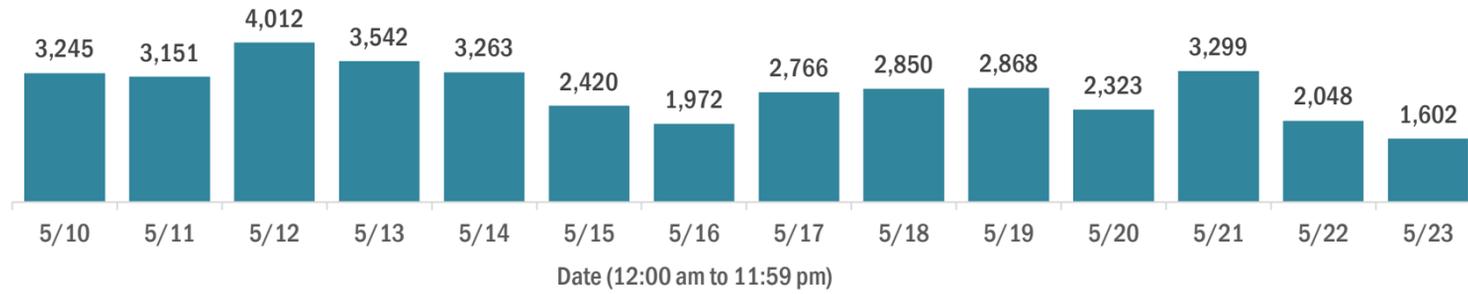

COVID-19: summary of laboratory testing

Data through May 23, 2021 verified as of May 24, 2021 at 09:25 AM

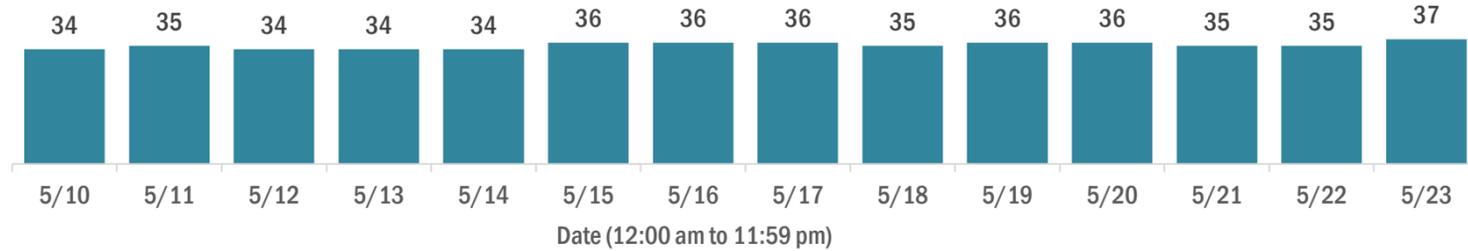

Data in this report are provisional and subject to change.

Cases in Florida residents per day for the past 2 weeks

Number of cases per day

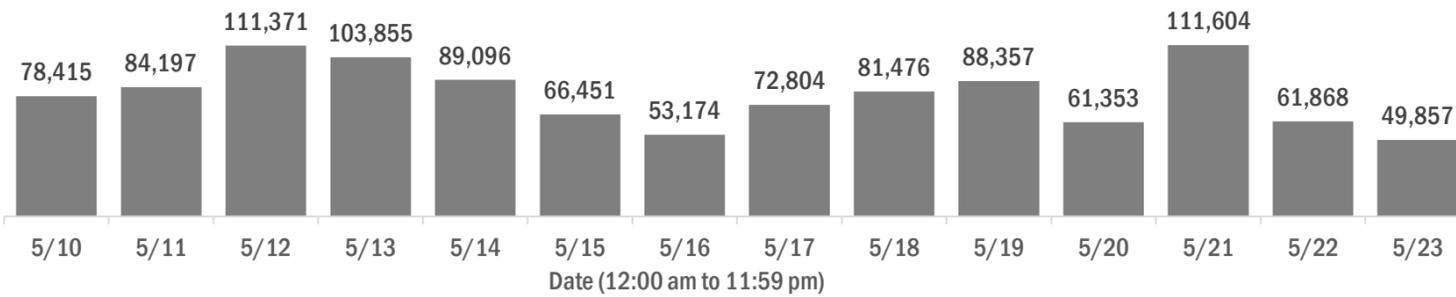

Median age of cases by day

Laboratory testing for Florida residents over the past 2 weeks

Number of Florida residents tested per day

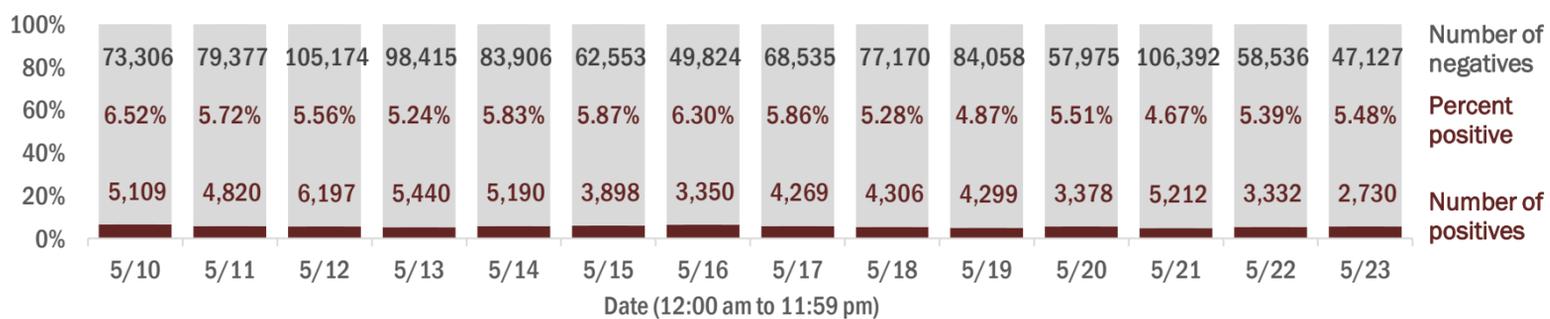

These counts include the number of people for whom the Department received PCR or antigen laboratory results by day. People tested on multiple days will be included for each day a new result was received. A person is only counted once for each day they are tested, regardless of whether multiple specimens are tested or multiple results are received.

Number and percent of Florida residents with positive test results

The percent of positive results ranged from 4.67% to 6.52% over the past 2 weeks and was 5.48% yesterday.

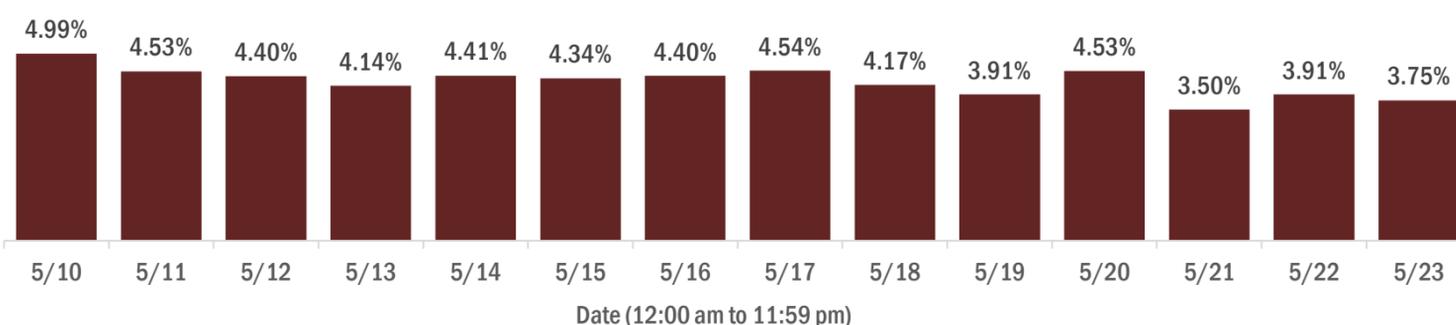

These counts include the number of people for whom the Department received PCR or antigen laboratory results by day. People tested on multiple days will be included for each day a new result was received. A person is only counted once for each day they are tested, regardless of whether multiple specimens are tested or multiple results are received. If a person has a positive specimen and a negative specimen in the same day, only the positive result is counted.

Percent positivity for new cases in Florida residents

The percent of positive results ranged from 3.50% to 4.99% over the past 2 weeks and was 3.75% yesterday.

This percent is the number of people who test PCR- or antigen-positive for the first time divided by all the people tested that day, excluding people who have previously tested positive.

COVID-19: characteristics of 2,268,729 Florida resident cases

Data through May 23, 2021 verified as of May 24, 2021 at 09:25 AM

Data in this report are provisional and subject to change.

COVID-19: additional surveillance information

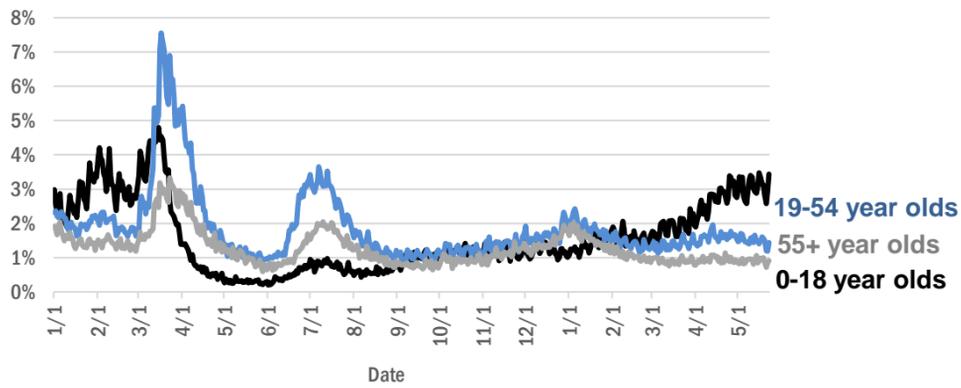

Data through May 23, 2021 verified as of May 24, 2021 at 09:25 AM

Data in this report are provisional and subject to change.

Statewide emergency department (ED) chief complaint and admission data

Daily percent of ED visits statewide that mention cough by age group

The Electronic Surveillance System for the Early Notification of Community-Based Epidemics (ESSENCE-FL) includes chief complaint data from 211 of 211 Florida EDs. Data are transmitted electronically to ESSENCE-FL daily or hourly.

COVID-19: testing by laboratory

Data through May 23, 2021 verified as of May 24, 2021 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

COVID-19: testing by laboratory

Data through May 23, 2021 verified as of May 24, 2021 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

COVID-19: testing by laboratory

Data through May 23, 2021 verified as of May 24, 2021 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

COVID-19: testing by laboratory

Data through May 23, 2021 verified as of May 24, 2021 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

COVID-19: testing by laboratory

Data through May 23, 2021 verified as of May 24, 2021 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

COVID-19: testing by laboratory

Data through May 23, 2021 verified as of May 24, 2021 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

COVID-19: testing by laboratory

Data through May 23, 2021 verified as of May 24, 2021 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

COVID-19: testing by laboratory

Data through May 23, 2021 verified as of May 24, 2021 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

COVID-19: testing by laboratory

Data through May 23, 2021 verified as of May 24, 2021 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

COVID-19: testing by laboratory

Data through May 23, 2021 verified as of May 24, 2021 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

COVID-19: testing by laboratory

Data through May 23, 2021 verified as of May 24, 2021 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

COVID-19: testing by laboratory

Data through May 23, 2021 verified as of May 24, 2021 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

COVID-19: testing by laboratory

Data through May 23, 2021 verified as of May 24, 2021 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

COVID-19: testing by laboratory

Data through May 23, 2021 verified as of May 24, 2021 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

COVID-19: testing by laboratory

Data through May 23, 2021 verified as of May 24, 2021 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

COVID-19: testing by laboratory

Data through May 23, 2021 verified as of May 24, 2021 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**
