COVID-19: summary of laboratory testing

Data through May 26, 2021 verified as of May 27, 2021 at 09:25 AM

Data in this report are provisional and subject to change.

Number of Florida residents tested per day

These counts include the number of people for whom the Department received PCR or antigen laboratory results by day. People tested on multiple days will be included for each day a new result was received. A person is only counted once for each day they are tested, regardless of whether multiple specimens are tested or multiple results are received.

Number and percent of Florida residents with positive test results

The percent of positive results ranged from 4.06% to 6.30% over the past 2 weeks and was 4.06% yesterday. These counts include the number of people for whom the Department received PCR or antigen laboratory results by day. People tested on multiple days will be included for each day a new result was received. A person is only counted once for each day they are tested, regardless of whether multiple specimens are tested or multiple results are received. If a person has a positive specimen and a negative specimen in the same day, only the positive result is counted.
