#### **COVID-19: summary of cases and monitoring**

Data through Feb 16, 2021 verified as of Feb 17, 2021 at 09:25 AM

Data in this report are provisional and subject to change.

| Cases: people with positive PCR or antigen test resu | ılt       |
|--|-----------|
| Total cases  | 1,844,627 |
| Florida residents                                    | 1,811,078 |
| Non-Florida residents                                | 33,549    |
| Type of testing                                      |           |
| Florida residents                                    | 1,811,078 |
| Positive by BPHL/CDC                                 | 66,429    |
| Positive by commercial/hospital lab                  | 1,744,649 |
| PCR positive   | 1,478,634 |
| Antigen positive                                     | 332,444   |
| Non-Florida residents                                | 33,549    |
| Positive by BPHL/CDC                                 | 838       |
| Positive by commercial/hospital lab                  | 32,711    |
| PCR positive   | 23,345    |
| Antigen positive                                     | 10,204    |
| Characteristics                                      |           |
| Florida residents hospitalized                       | 76,825    |
| Florida resident deaths                              | 29,311    |
| Non-Florida resident deaths                          | 513       |

Hospitalized counts include anyone who was hospitalized at some point during their illness. It does not reflect the number of people currently hospitalized.

More information on deaths identified through death certificate data is available on the National Center for Health Statistics website at www.cdc.gov/nchs/nvss/vsrr/COVID19/index.htm.

#### Cases: people with positive PCR or antigen test result

#### Risk factors for Florida residents

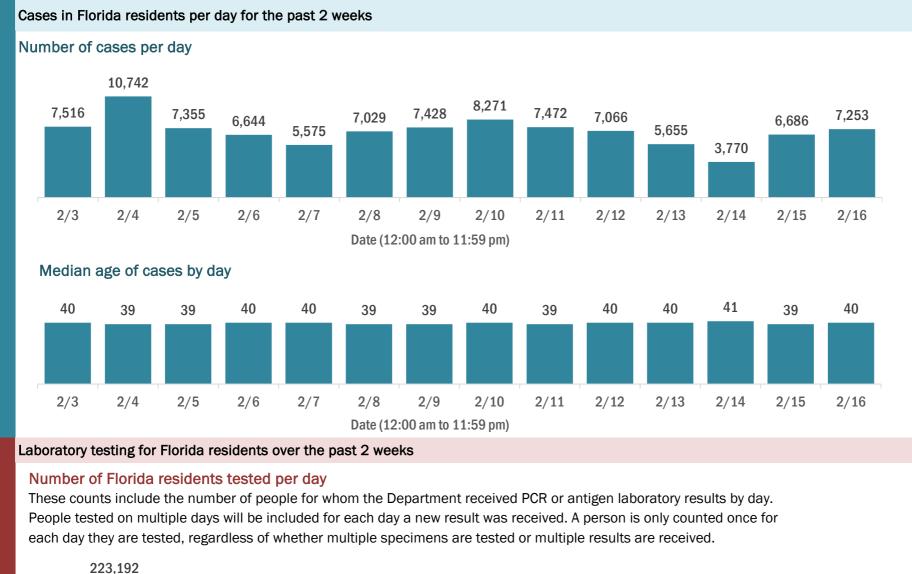

| Traveled                               | 14,483    |
|--|-----------|
| Contact with a known case              | 690,823   |
| Traveled and contact with a known case | 19,773    |
| Neither                                | 1,085,999 |
| No travel and no contact               | 208,965   |
| Travel is unknown                      | 639,584   |
| Contact is unknown                     | 396,913   |
| Contact is pending                     | 418,510   |

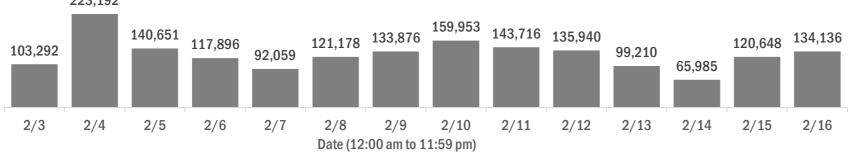

Travel can be unknown and contact can be unknown or pending for the same case, these numbers will sum to more than the "neither" total.

#### **COVID-19: summary of laboratory testing**

Data through Feb 16, 2021 verified as of Feb 17, 2021 at 09:25 AM

Data in this report are provisional and subject to change.

#### Number and percent of Florida residents with positive test results

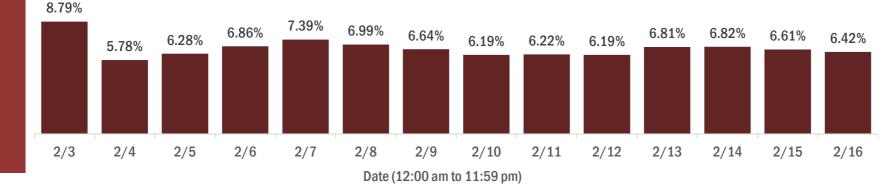

The percent of positive results ranged from 7.11% to 11.36% over the past 2 weeks and was 8.42% yesterday. These counts include the number of people for whom the Department received PCR or antigen laboratory results by day. People tested on multiple days will be included for each day a new result was received. A person is only counted once for each day they are tested, regardless of whether multiple specimens are tested or multiple results are received. If a person has a positive specimen and a negative specimen in the same day, only the positive result is counted.

#### Percent positivity for new cases in Florida residents

The percent of positive results ranged from 5.78% to 8.79% over the past 2 weeks and was 6.42% yesterday. This percent is the number of people who test PCR- or antigen-positive for the first time divided by all the people tested that day, excluding people who have previously tested positive.
