

COVID-19: summary of persons being monitored, persons tested, and cases

Data through Aug 4, 2020 verified as of Aug 5, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

Monitored persons: people the Florida Department of Health was notified of for possible monitoring because they are a contact of a case, traveled from China, or were identified by the Centers for Disease Control and Prevention (CDC) as a part of a airline/ship contact investigation

Total reports	153,342
Total persons of high, medium, or unknown risk	149,668
High/medium/unknown risk still being monitored	14,462

Persons tested: includes PCR and antigen test results received by the Department of Health from the state public health laboratory (BPHL), as well as commercial and hospital laboratories

Total tested	3,820,683
Positive	502,739
Negative	3,312,145
Inconclusive	5,799
Awaiting testing	3,277

Cases: people with positive PCR or antigen test result

Total cases	502,739
Florida residents	497,181
Non-Florida residents	5,558

Type of testing	
Florida residents	497,181
Positive by BPHL/CDC	16,360
Positive by commercial/hospital lab	480,821
Non-Florida residents	5,558
Positive by BPHL/CDC	204
Positive by commercial/hospital lab	5,354

Characteristics	
Florida residents hospitalized	28,573
Florida resident deaths	7,627
Change in deaths since previous report	+225
Non-Florida resident deaths	124

Hospitalized counts include anyone who was hospitalized at some point during their illness. It does not reflect the number of people currently hospitalized.

More information on deaths identified through death certificate data is available on the National Center for Health Statistics website at www.cdc.gov/nchs/nvss/vsrr/COVID19/index.htm.

Risk factors for Florida residents	
Traveled	3,832
Contact with a known case	141,518
Traveled and contact with a known case	3,897
Neither	347,934
No travel and no contact	51,995
Travel is unknown	238,814
Contact is unknown	92,404
Contact is pending	193,142

Travel can be unknown and contact can be unknown or pending for the same case, these numbers will sum to more than the "neither" total.

COVID-19: cases and laboratory testing over time

Data through Aug 4, 2020 verified as of Aug 5, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

Cases in Florida residents per day for the past 2 weeks

Number of cases per day

Median age of cases by day

Laboratory testing for Florida residents and non-Florida residents over the past 2 weeks

Number of people tested per day

These counts include the number of people for whom the department received PCR or antigen laboratory results by day. People tested on multiple days will be included for each day a new result was received. A person is only counted once for each day they are tested, regardless of whether multiple specimens are tested or multiple results are received.

Number and percent of positive labs

The percent of positive results ranged from 12.70% to 16.64% over the past 2 weeks and was 13.96% yesterday.

These counts include the number of people for whom the department received PCR or antigen laboratory results by day. People tested on multiple days will be included for each day a new result was received. A person is only counted once for each day they are tested, regardless of whether multiple specimens are tested or multiple results are received. If a person has a positive specimen and a negative specimen in the same day, only the positive result is counted.

Percent positivity for new cases

The percent of positive results ranged from 9.07% to 13.36% over the past 2 weeks and was 10.89% yesterday.

This percent is the number of people who test PCR- or antigen-positive for the first time divided by all the people tested that day, excluding people who have previously tested positive.

COVID-19: characteristics of 497,181 Florida resident cases

Data through Aug 4, 2020 verified as of Aug 5, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

COVID-19: additional surveillance information

Data through Aug 4, 2020 verified as of Aug 5, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

Statewide emergency department (ED) chief complaint and admission data

Daily percent of ED visits statewide that mention cough by age group

The Electronic Surveillance System for the Early Notification of Community-Based Epidemics (ESSENCE-FL) includes chief complaint data from 211 of 212 Florida EDs. Data are transmitted electronically to ESSENCE-FL daily or hourly.

COVID-19: All persons with tests reported

Data through Aug 4, 2020 verified as of Aug 5, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

The table below includes persons with laboratory results that the Department of Health has received electronically or by mail/fax for Florida residents and non-Florida residents.

County	Awaiting testing	Inconclusive	Negative	Positive	Percent positive	Total tested
