### Laboratory testing for Florida residents and non-Florida residents over the past 2 weeks

#### Number of people tested per day

These counts include the number of people for whom the department received laboratory results by day. People tested on multiple days will be included for each day a new result was received. A person is only counted once for each day they are tested, regardless of whether multiple specimens are tested or multiple results are received.

- **4/7**: 12,578
- **4/8**: 7,060
- **4/9**: 10,612

#### Number and percent of positive labs

The percent of positive results ranged from 8% to 18% over the past 2 weeks and was 9% yesterday. These counts include the number of people for whom the department received laboratory results by day. People tested on multiple days will be included for each day a new result was received. A person is only counted once for each day they are tested, regardless of whether multiple specimens are tested or multiple results are received. If a person has a positive specimen and a negative specimen in the same day, only the positive result is counted.

## Coronavirus: testing by laboratory

Data verified as of Apr 21, 2020 at 5 PM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. Therefore, the sum of the numbers in each column will be larger than the total number of people tested.

**Hospitalization counts include anyone who was hospitalized at some point during their illness. It does not reflect the number of people currently hospitalized.**

**Other race** includes any person with a race of American Indian/Alaskan native, Asian, native Hawaiian/Pacific Islander, or other.

**Laboratory testing for Florida residents and non-Florida residents over the past 2 weeks**

These counts include the number of people for whom the department received laboratory results by day. People tested on multiple days will be included for each day a new result was received. A person is only counted once for each day they are tested, regardless of whether multiple specimens are tested or multiple results are received. If a person has a positive specimen and a negative specimen in the same day, only the positive result is counted.

**Emergency department (ED) chief complaint and admission data for Broward County**

Daily percent of ED visits that result in **cough-associated admissions**

Daily percent of ED visits that mention **cough**, **fever**, or **shortness of breath**

The Electronic Surveillance System for the Early Notification of Community-Based Epidemics (ESSENCE-FL) includes chief complaint data from 215 of 216 Florida EDs. Data are transmitted electronically to ESSENCE-FL daily or hourly.

#### Laboratory testing for Florida residents and non-Florida residents over the past 2 weeks

These counts include the number of people for whom the department received laboratory results by day. People tested on multiple days will be included for each day a new result was received. A person is only counted once for each day they are tested, regardless of whether multiple specimens are tested or multiple results are received. If a person has a positive specimen and a negative specimen in the same day, only the positive result is counted.

**Hospitalization counts** include anyone who was hospitalized at some point during their illness. It does not reflect the number of people currently hospitalized.

**Other race** includes any person with a race of American Indian/Alaskan native, Asian, native Hawaiian/Pacific Islander, or other.

**Laboratory testing for Florida residents and non-Florida residents over the past 2 weeks**

Number and percent of positive labs

These counts include the number of people for whom the department received laboratory results by day. People tested on multiple days will be included for each day a new result was received. A person is only counted once for each day they are tested, regardless of whether multiple specimens are tested or multiple results are received. If a person has a positive specimen and a negative specimen in the same day, only the positive result is counted.

**Emergency department (ED) chief complaint and admission data for Pinellas County**

Daily percent of ED visits that result in **cough-associated admissions**

Daily percent of ED visits that mention **cough**, **fever**, or **shortness of breath**

The Electronic Surveillance System for the Early Notification of Community-Based Epidemics (ESSENCE-FL) includes chief complaint data from 215 of 216 Florida EDs. Data are transmitted electronically to ESSENCE-FL daily or hourly.
