

COVID-19: summary of cases and monitoring

Data through Jan 13, 2021 verified as of Jan 14, 2021 at 09:25 AM

Data in this report are provisional and subject to change.

Cases: people with positive PCR or antigen test result

Total cases	1,531,192
Florida residents	1,503,529
Non-Florida residents	27,663
Type of testing	
Florida residents	1,503,529
Positive by BPHL/CDC	54,541
Positive by commercial/hospital lab	1,448,988
PCR positive	1,259,047
Antigen positive	244,482
Non-Florida residents	27,663
Positive by BPHL/CDC	722
Positive by commercial/hospital lab	26,941
PCR positive	19,941
Antigen positive	7,722
Characteristics	
Florida residents hospitalized	67,036
Florida resident deaths	23,613
Non-Florida resident deaths	368

Hospitalized counts include anyone who was hospitalized at some point during their illness. It does not reflect the number of people currently hospitalized.

More information on deaths identified through death certificate data is available on the National Center for Health Statistics website at www.cdc.gov/nchs/nvss/vsrr/COVID19/index.htm.

Cases: people with positive PCR or antigen test result

Risk factors for Florida residents

Traveled	12,522
Contact with a known case	561,886
Traveled and contact with a known case	16,978
Neither	912,143
No travel and no contact	173,222
Travel is unknown	542,163
Contact is unknown	332,233
Contact is pending	355,061

Travel can be unknown and contact can be unknown or pending for the same case, these numbers will sum to more than the "neither" total.

COVID-19: summary of laboratory testing

Data through Jan 13, 2021 verified as of Jan 14, 2021 at 09:25 AM

Data in this report are provisional and subject to change.

Cases in Florida residents per day for the past 2 weeks

Number of cases per day

Median age of cases by day

Laboratory testing for Florida residents over the past 2 weeks

Number of Florida residents tested per day

These counts include the number of people for whom the Department received PCR or antigen laboratory results by day. People tested on multiple days will be included for each day a new result was received. A person is only counted once for each day they are tested, regardless of whether multiple specimens are tested or multiple results are received.

Number and percent of Florida residents with positive test results

The percent of positive results ranged from 10.78% to 14.71% over the past 2 weeks and was 10.78% yesterday.

These counts include the number of people for whom the Department received PCR or antigen laboratory results by day. People tested on multiple days will be included for each day a new result was received. A person is only counted once for each day they are tested, regardless of whether multiple specimens are tested or multiple results are received. If a person has a positive specimen and a negative specimen in the same day, only the positive result is counted.

Percent positivity for new cases in Florida residents

The percent of positive results ranged from 8.63% to 12.98% over the past 2 weeks and was 8.63% yesterday.

This percent is the number of people who test PCR- or antigen-positive for the first time divided by all the people tested that day, excluding people who have previously tested positive.

COVID-19: characteristics of 1,503,529 Florida resident cases

Data through Jan 13, 2021 verified as of Jan 14, 2021 at 09:25 AM

Data in this report are provisional and subject to change.

COVID-19: additional surveillance information

Data through Jan 13, 2021 verified as of Jan 14, 2021 at 09:25 AM

Data in this report are provisional and subject to change.

Statewide emergency department (ED) chief complaint and admission data

Daily percent of ED visits statewide that mention cough by age group

The Electronic Surveillance System for the Early Notification of Community-Based Epidemics (ESSENCE-FL) includes chief complaint data from 211 of 211 Florida EDs. Data are transmitted electronically to ESSENCE-FL daily or hourly.

COVID-19: testing by laboratory

Data through Jan 13, 2021 verified as of Jan 14, 2021 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

COVID-19: testing by laboratory

Data through Jan 13, 2021 verified as of Jan 14, 2021 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

COVID-19: testing by laboratory

Data through Jan 13, 2021 verified as of Jan 14, 2021 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

COVID-19: testing by laboratory

Data through Jan 13, 2021 verified as of Jan 14, 2021 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

COVID-19: testing by laboratory

Data through Jan 13, 2021 verified as of Jan 14, 2021 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

COVID-19: testing by laboratory

Data through Jan 13, 2021 verified as of Jan 14, 2021 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

COVID-19: testing by laboratory

Data through Jan 13, 2021 verified as of Jan 14, 2021 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

COVID-19: testing by laboratory

Data through Jan 13, 2021 verified as of Jan 14, 2021 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

COVID-19: testing by laboratory

Data through Jan 13, 2021 verified as of Jan 14, 2021 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

COVID-19: testing by laboratory

Data through Jan 13, 2021 verified as of Jan 14, 2021 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**
