

# COVID-19: summary of cases and monitoring

Data through Nov 9, 2020 verified as of Nov 10, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

## Cases: people with positive PCR or antigen test result

<b>Total cases</b>	<b>852,174</b>
Florida residents	840,652
Non-Florida residents	11,522
<b>Type of testing</b>	
Florida residents	840,652
Positive by BPHL/CDC	32,580
Positive by commercial/hospital lab	808,072
PCR positive	794,860
Antigen positive	45,792
Non-Florida residents	11,522
Positive by BPHL/CDC	337
Positive by commercial/hospital lab	11,185
PCR positive	10,163
Antigen positive	1,359
<b>Characteristics</b>	
Florida residents hospitalized	50,872
Florida resident deaths	17,248
Non-Florida resident deaths	212

Hospitalized counts include anyone who was hospitalized at some point during their illness. It does not reflect the number of people currently hospitalized.

More information on deaths identified through death certificate data is available on the National Center for Health Statistics website at [www.cdc.gov/nchs/nvss/vsrr/COVID19/index.htm](http://www.cdc.gov/nchs/nvss/vsrr/COVID19/index.htm).

## Cases: people with positive PCR or antigen test result

### Risk factors for Florida residents

Traveled	7,775
Contact with a known case	320,861
Traveled and contact with a known case	8,771
Neither	503,245
No travel and no contact	112,220
Travel is unknown	268,868
Contact is unknown	217,076
Contact is pending	151,382

Travel can be unknown and contact can be unknown or pending for the same case, these numbers will sum to more than the "neither" total.

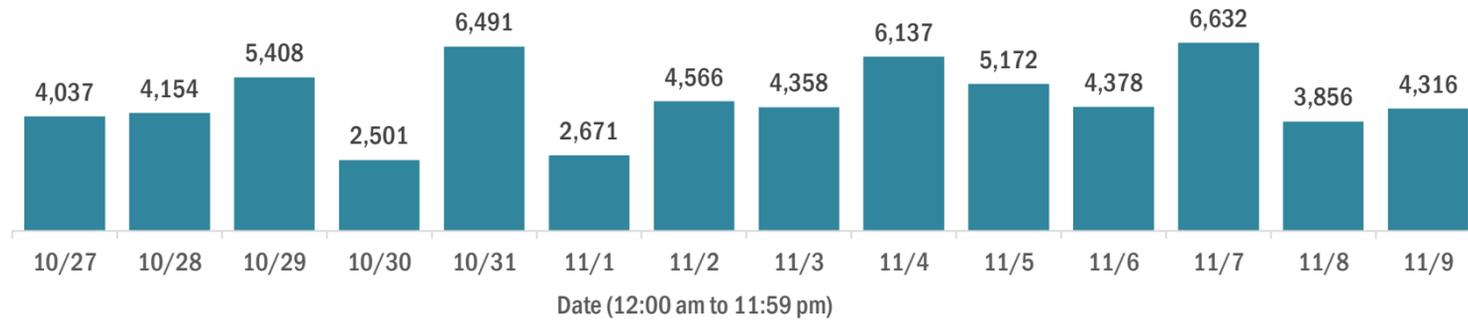

# COVID-19: summary of laboratory testing

Data through Nov 9, 2020 verified as of Nov 10, 2020 at 09:25 AM

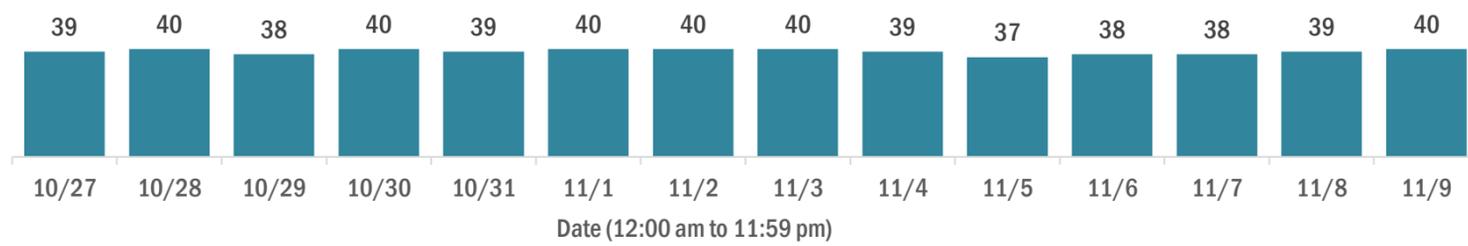

Data in this report are provisional and subject to change.

## Cases in Florida residents per day for the past 2 weeks

### Number of cases per day

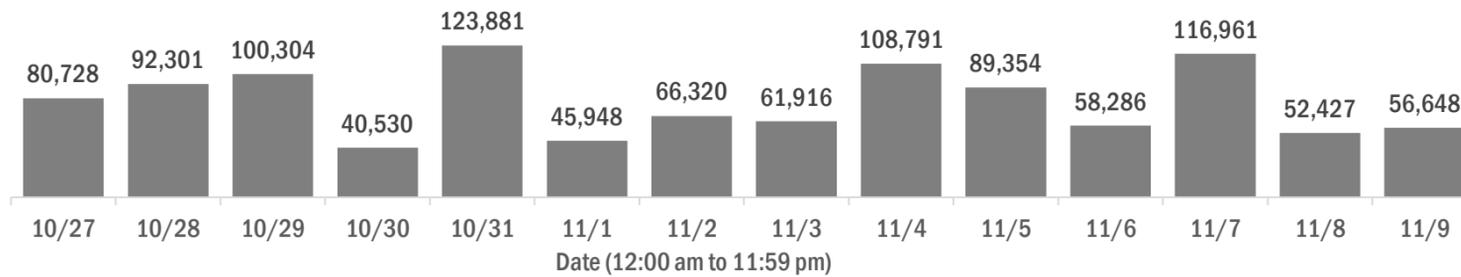

### Median age of cases by day

## Laboratory testing for Florida residents over the past 2 weeks

### Number of Florida residents tested per day

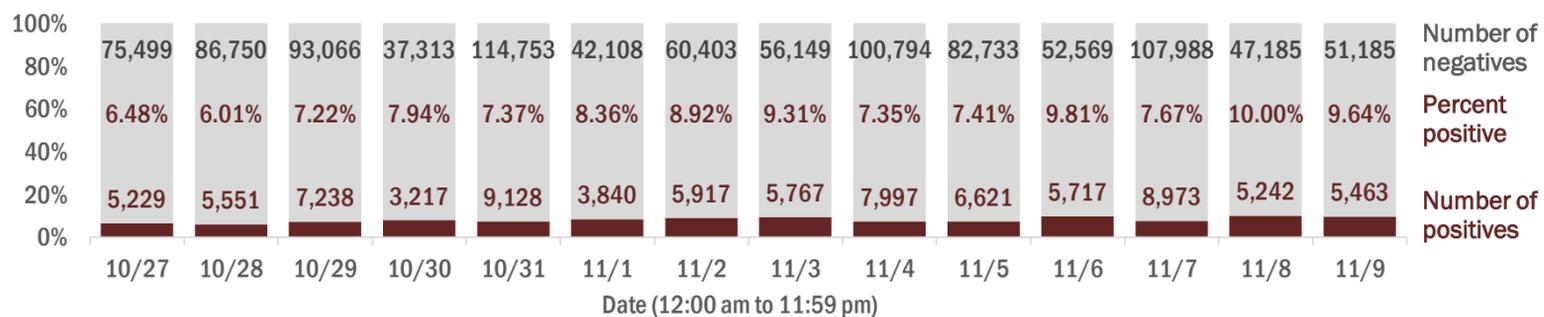

These counts include the number of people for whom the Department received PCR or antigen laboratory results by day. People tested on multiple days will be included for each day a new result was received. A person is only counted once for each day they are tested, regardless of whether multiple specimens are tested or multiple results are received.

### Number and percent of Florida residents with positive test results

The percent of positive results ranged from 6.01% to 10.00% over the past 2 weeks and was 9.64% yesterday.

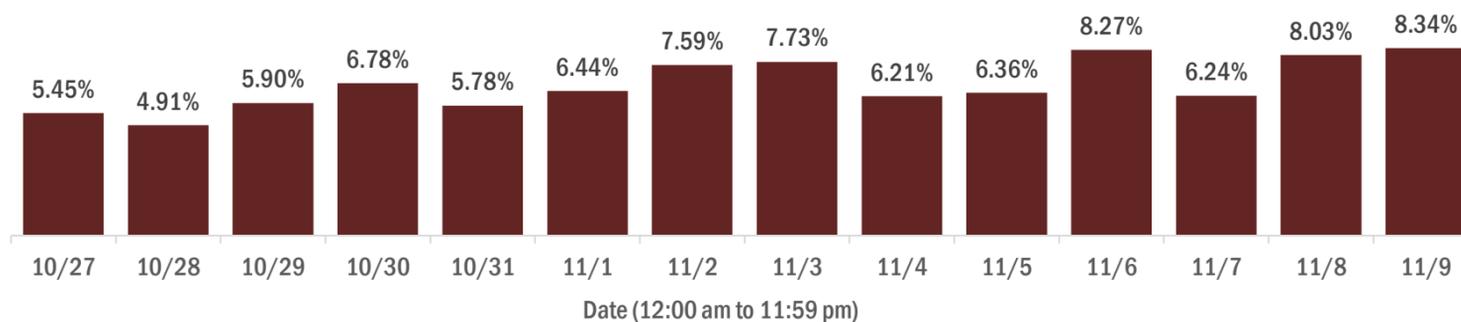

These counts include the number of people for whom the Department received PCR or antigen laboratory results by day. People tested on multiple days will be included for each day a new result was received. A person is only counted once for each day they are tested, regardless of whether multiple specimens are tested or multiple results are received. If a person has a positive specimen and a negative specimen in the same day, only the positive result is counted.

### Percent positivity for new cases in Florida residents

The percent of positive results ranged from 4.91% to 8.34% over the past 2 weeks and was 8.34% yesterday.

This percent is the number of people who test PCR- or antigen-positive for the first time divided by all the people tested that day, excluding people who have previously tested positive.

# COVID-19: characteristics of 840,652 Florida resident cases

Data through Nov 9, 2020 verified as of Nov 10, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

# COVID-19: additional surveillance information

Data through Nov 9, 2020 verified as of Nov 10, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

## Statewide emergency department (ED) chief complaint and admission data

The Electronic Surveillance System for the Early Notification of Community-Based Epidemics (ESSENCE-FL) includes chief complaint data from 211 of 211 Florida EDs. Data are transmitted electronically to ESSENCE-FL daily or hourly.

# COVID-19: testing by laboratory

Data through Nov 9, 2020 verified as of Nov 10, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

# COVID-19: testing by laboratory

Data through Nov 9, 2020 verified as of Nov 10, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

# COVID-19: testing by laboratory

Data through Nov 9, 2020 verified as of Nov 10, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

# COVID-19: testing by laboratory

Data through Nov 9, 2020 verified as of Nov 10, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

# COVID-19: testing by laboratory

Data through Nov 9, 2020 verified as of Nov 10, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

# COVID-19: testing by laboratory

Data through Nov 9, 2020 verified as of Nov 10, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**
