

# COVID-19: summary of persons monitored, persons tested, and cases

Data through Sep 16, 2020 verified as of Sep 17, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

Monitored persons: people the Florida Department of Health was notified of for possible monitoring because they are a contact of a case, traveled from China, or were identified by the Centers for Disease Control and Prevention (CDC) as a part of a airline/ship contact investigation

<b>Total reports</b>	<b>239,115</b>
Total persons of high, medium, or unknown risk	235,461
High/medium/unknown risk still being monitored	17,504

Persons tested: includes PCR and antigen test results received by the Department of Health from the state public health laboratory (BPHL), as well as commercial and hospital laboratories

	Florida residents	Non-Florida residents
Total tested	4,997,489	20,568
Positive	666,507	7,949
Negative	4,323,939	12,578
Inconclusive	7,043	41
Awaiting testing	3,785	32

Cumulative percent positivity (based on positive and negative results from March 1 - present)

Cases: people with positive PCR or antigen test result

<b>Total cases</b>	<b>674,456</b>
Florida residents	666,507
Non-Florida residents	7,949

<b>Type of testing</b>	
Florida residents	666,507
Positive by BPHL/CDC	23,852
Positive by commercial/hospital lab	642,655
PCR positive	653,089
Antigen positive	13,418
Non-Florida residents	7,949
Positive by BPHL/CDC	249
Positive by commercial/hospital lab	7,700
PCR positive	7,576
Antigen positive	373

<b>Characteristics</b>	
Florida residents hospitalized	42,047
Florida resident deaths	13,086
Non-Florida resident deaths	161

Hospitalized counts include anyone who was hospitalized at some point during their illness. It does not reflect the number of people currently hospitalized.

More information on deaths identified through death certificate data is available on the National Center for Health Statistics website at [www.cdc.gov/nchs/nvss/vsrr/COVID19/index.htm](http://www.cdc.gov/nchs/nvss/vsrr/COVID19/index.htm).

<b>Risk factors for Florida residents</b>	
Traveled	5,302
Contact with a known case	235,317
Traveled and contact with a known case	5,602
Neither	420,286
No travel and no contact	82,250
Travel is unknown	245,096
Contact is unknown	164,856
Contact is pending	155,587

Travel can be unknown and contact can be unknown or pending for the same case, these numbers will sum to more than the "neither" total.

# COVID-19: cases and laboratory testing over time

Data through Sep 16, 2020 verified as of Sep 17, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

## Cases in Florida residents per day for the past 2 weeks

### Number of cases per day

### Median age of cases by day

## Laboratory testing for Florida residents over the past 2 weeks

### Number of Florida residents tested per day

These counts include the number of people for whom the Department received PCR or antigen laboratory results by day. People tested on multiple days will be included for each day a new result was received. A person is only counted once for each day they are tested, regardless of whether multiple specimens are tested or multiple results are received.

### Number and percent of Florida residents with positive test results

The percent of positive results ranged from 5.17% to 8.13% over the past 2 weeks and was 5.68% yesterday.

These counts include the number of people for whom the Department received PCR or antigen laboratory results by day. People tested on multiple days will be included for each day a new result was received. A person is only counted once for each day they are tested, regardless of whether multiple specimens are tested or multiple results are received. If a person has a positive specimen and a negative specimen in the same day, only the positive result is counted.

### Percent positivity for new cases in Florida residents

The percent of positive results ranged from 3.85% to 5.93% over the past 2 weeks and was 4.46% yesterday.

This percent is the number of people who test PCR- or antigen-positive for the first time divided by all the people tested that day, excluding people who have previously tested positive.

# COVID-19: characteristics of 666,507 Florida resident cases

Data through Sep 16, 2020 verified as of Sep 17, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

# COVID-19: additional surveillance information

Data through Sep 16, 2020 verified as of Sep 17, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

## Statewide emergency department (ED) chief complaint and admission data

## Daily percent of ED visits statewide that mention cough by age group

The Electronic Surveillance System for the Early Notification of Community-Based Epidemics (ESSENCE-FL) includes chief complaint data from 211 of 212 Florida EDs. Data are transmitted electronically to ESSENCE-FL daily or hourly.

# COVID-19: All Florida residents with test results reported

Data through Sep 16, 2020 verified as of Sep 17, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

The table below includes persons with laboratory results that the Department of Health has received electronically or by mail/fax for Florida residents.

County	Awaiting testing	Inconclusive	Negative	Positive	Percent positive	Total tested

# COVID-19: testing by laboratory

Data through Sep 16, 2020 verified as of Sep 17, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

# COVID-19: testing by laboratory

Data through Sep 16, 2020 verified as of Sep 17, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

# COVID-19: testing by laboratory

Data through Sep 16, 2020 verified as of Sep 17, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

# COVID-19: testing by laboratory

Data through Sep 16, 2020 verified as of Sep 17, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**
