#### COVID-19: summary of persons monitored, persons tested, and cases

Data through Sep 19, 2020 verified as of Sep 20, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

Monitored persons: people the Florida Department of Health was notified of for possible monitoring because they are a contact of a case, traveled from China, or were identified by the Centers for Disease Control and Prevention (CDC) as a part of a airline/ship contact investigation

| Total reports                                  | 246,043 |
|--|---------|
| Total persons of high, medium, or unknown risk | 242,389 |
| High/medium/unknown risk still being monitored | 18,010  |

Persons tested: includes PCR and antigen test results received by the Department of Health from the state public health laboratory (BPHL), as well as commercial and hospital laboratories

|              | Florida<br>residents | Non-Florida<br>residents |
|--------------|----------------------|--------------------------|
| Total tested | 5,081,515            | 20,688                   |
| Positive     | 675,691              | 8,063                    |
| Negative     | 4,398,752            | 12,583                   |
| Inconclusive | 7,072                | 42                       |

#### Cases: people with positive PCR or antigen test result

| Total cases                         | 683,754 |
|-------------------------------------|---------|
| Florida residents                   | 675,691 |
| Non-Florida residents               | 8,063   |
| Type of testing                     |         |
| Florida residents                   | 675,691 |
| Positive by BPHL/CDC                | 24,206  |
| Positive by commercial/hospital lab | 651,485 |
| PCR positive                        | 661,506 |
| Antigen positive                    | 14,185  |
| Non-Florida residents               | 8,063   |
| Positive by BPHL/CDC                | 249     |
| Positive by commercial/hospital lab | 7,814   |
| PCR positive                        | 7,683   |
| Antigen positive                    | 380     |
| Characteristics                     |         |
| Florida residents hospitalized      | 42,453  |
| Florida resident deaths             | 13,296  |
| Non-Florida resident deaths         | 163     |
|                                     |         |

Hospitalized counts include anyone who was hospitalized at some point during their illness. It does not reflect the number of people currently hospitalized.

More information on deaths identified through death certificate data is available on the National Center for Health Statistics website at www.cdc.gov/nchs/nvss/vsrr/COVID19/index.htm.

#### Risk factors for Florida residents

| Traveled                               | 5,414   |
|--|---------|
| Contact with a known case              | 240,483 |
| Traveled and contact with a known case | 5,717   |
| Neither                                | 424,077 |
| No travel and no contact               | 83,562  |
| Travel is unknown                      | 246,145 |
| Contact is unknown                     | 167,842 |
| Contact is pending                     | 154,741 |

Travel can be unknown and contact can be unknown or pending for the same case, these numbers will sum to more than the "neither" total.

#### **COVID-19: cases and laboratory testing over time**

Data through Sep 19, 2020 verified as of Sep 20, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

Cases in Florida residents per day for the past 2 weeks

#### Laboratory testing for Florida residents over the past 2 weeks

#### Number of Florida residents tested per day

These counts include the number of people for whom the Department received PCR or antigen laboratory results by day. People tested on multiple days will be included for each day a new result was received. A person is only counted once for each day they are tested, regardless of whether multiple specimens are tested or multiple results are received.

#### Number and percent of Florida residents with positive test results

The percent of positive results ranged from 5.16% to 8.13% over the past 2 weeks and was 6.23% yesterday.

These counts include the number of people for whom the Department received PCR or antigen laboratory results by day. People tested on multiple days will be included for each day a new result was received. A person is only counted once for each day they are tested, regardless of whether multiple specimens are tested or multiple results are received. If a person has a positive specimen and a negative specimen in the same day, only the positive result is counted.

#### Date (12:00 am to 11:59 pm)

#### Percent positivity for new cases in Florida residents

#### The percent of positive results ranged from 3.85% to 5.91% over the past 2 weeks and was 4.64% yesterday. This percent is the number of people who test PCR- or antigen-positive for the first time divided by all the people tested that day,

excluding people who have previously tested positive.
