### Laboratory testing for Florida residents and non-Florida residents over the past 2 weeks

#### Number of people tested per day
These counts include the number of people for whom the department received laboratory results by day. People tested on multiple days will be included for each day a new result was received. A person is only counted once for each day they are tested, regardless of whether multiple specimens are tested or multiple results are received.

### Coronavirus: testing by laboratory

Data verified as of Jun 19, 2020 at 10 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**
