

COVID-19: summary of persons being monitored, persons tested, and cases

Data through Jul 26, 2020 verified as of Jul 27, 2020 at 08:55 AM

Data in this report are provisional and subject to change.

Monitored persons: people the Florida Department of Health was notified of for possible monitoring because they are a contact of a case, traveled from China, or were identified by the Centers for Disease Control and Prevention (CDC) as a part of an airline/ship contact investigation

Total reports	130,561
Total persons of high, medium, or unknown risk	126,883
High/medium/unknown risk still being monitored	13,757

Persons tested: includes PCR and antigen test results received by the Department of Health from the state public health laboratory (BPHL), as well as commercial and hospital laboratories

Total tested	3,436,270
Positive	432,747
Negative	2,998,750
Inconclusive	4,773
Awaiting testing	2,902

Cases: people with positive PCR or antigen test result

Total cases	432,747
Florida residents	427,698
Non-Florida residents	5,049

Type of testing	
Florida residents	427,698
Positive by BPHL/CDC	14,362
Positive by commercial/hospital lab	413,336
Non-Florida residents	5,049
Positive by BPHL/CDC	193
Positive by commercial/hospital lab	4,856

Characteristics	
Florida residents hospitalized	24,332
Florida resident deaths	5,931
Change in deaths since previous report	+77
Non-Florida resident deaths	118

Hospitalized counts include anyone who was hospitalized at some point during their illness. It does not reflect the number of people currently hospitalized.

More information on deaths identified through death certificate data is available on the National Center for Health Statistics website at www.cdc.gov/nchs/nvss/vsrr/COVID19/index.htm.

Risk factors for Florida residents	
Traveled	3,417
Contact with a known case	110,920
Traveled and contact with a known case	3,394
Neither	309,967
No travel and no contact	41,415
Travel is unknown	223,018
Contact is unknown	72,129
Contact is pending	190,115

Travel can be unknown and contact can be unknown or pending for the same case, these numbers will sum to more than the "neither" total.

COVID-19: cases and laboratory testing over time

Data through Jul 26, 2020 verified as of Jul 27, 2020 at 08:55 AM

Data in this report are provisional and subject to change.

Cases in Florida residents per day for the past 2 weeks

Number of cases per day

Median age of cases by day

Laboratory testing for Florida residents and non-Florida residents over the past 2 weeks

Number of people tested per day

These counts include the number of people for whom the department received PCR or antigen laboratory results by day. People tested on multiple days will be included for each day a new result was received. A person is only counted once for each day they are tested, regardless of whether multiple specimens are tested or multiple results are received.

Number and percent of positive labs

The percent of positive results ranged from 13.50% to 18.29% over the past 2 weeks and was 15.10% yesterday.

These counts include the number of people for whom the department received PCR or antigen laboratory results by day. People tested on multiple days will be included for each day a new result was received. A person is only counted once for each day they are tested, regardless of whether multiple specimens are tested or multiple results are received. If a person has a positive specimen and a negative specimen in the same day, only the positive result is counted.

Percent positivity for new cases

The percent of positive results ranged from 10.55% to 15.14% over the past 2 weeks and was 11.39% yesterday.

This percent is the number of people who test PCR- or antigen-positive for the first time divided by all the people tested that day, excluding people who have previously tested positive.

COVID-19: characteristics of 427,698 Florida resident cases

Data through Jul 26, 2020 verified as of Jul 27, 2020 at 08:55 AM

Data in this report are provisional and subject to change.

COVID-19: characteristics of 427,698 Florida resident cases

Data through Jul 26, 2020 verified as of Jul 27, 2020 at 08:55 AM

Data in this report are provisional and subject to change.

The table below includes the cities and counties of residence for cases in Florida residents based on the patient's ZIP Code.

Note that city is not always received as part of the initial notification and may be missing while the case is being investigated.

City and county	Cases
University Of Central Fl, Orange	1
Valrico, Orange	1

COVID-19: additional surveillance information

Data through Jul 26, 2020 verified as of Jul 27, 2020 at 08:55 AM

Data in this report are provisional and subject to change.

Statewide emergency department (ED) chief complaint and admission data

Daily percent of ED visits statewide that mention cough by age group

The Electronic Surveillance System for the Early Notification of Community-Based Epidemics (ESSENCE-FL) includes chief complaint data from 211 of 212 Florida EDs. Data are transmitted electronically to ESSENCE-FL daily or hourly.

COVID-19: All persons with tests reported

Data through Jul 26, 2020 verified as of Jul 27, 2020 at 08:55 AM

Data in this report are provisional and subject to change.

The table below includes persons with laboratory results that the Department of Health has received electronically or by mail/fax for Florida residents and non-Florida residents.

County	Awaiting testing	Inconclusive	Negative	Positive	Percent positive	Total tested
