## **COVID-19: vaccine summary**

## Vaccination data through May 25, 2021 as of May 26, 2021 at 12:05 AM

Data in this report are provisional and subject to change.

Data in this summary pertain to COVID-19 vaccines approved by the U.S. Food and Drug Administration and have been issued an Emergency Use Authorization (Janssen COVID-19 Vaccine, Moderna COVID-19 Vaccine and Pfizer-BioNTech COVID-19 Vaccine). These data summarize the number of people who have received either their first dose or have completed the series for a COVID-19 vaccine. **A person can only be counted in one category, first dose or series complete.** For persons receiving Moderna or Pfizer vaccines, once they receive their second dose, they are moved from the first dose column to the series completed column. **Because of this, the total first dose category may show a change from report to report not matching the total receiving their first dose from the previous day.** Persons receiving Johnson & Johnson vaccines will always be counted in the series completed column.
