

Florida has many sites that are providing COVID-19 vaccines to eligible persons. The state is prioritizing persons 65 years of age and older and health care personnel with direct patient contact and residents and staff of long term care facilities.

Please be aware that some locations are only serving very specific populations, such as frontline health care workers.

Appointments may be required.

This list will be updated as more sites and vaccines become available.

County	Vaccination Site Name & Address	Phone or Website
