Program Purpose
The Nonprofit Security Grant Program (NSGP) provides funding for physical security enhancements and other security-related activities to nonprofit organizations that are at high risk of a terrorist attack. The NSGP also seeks to integrate the preparedness activities of nonprofit organizations with broader state and local preparedness efforts. In FY 2022, multiple funding allocations have been appropriated for nonprofit organizations located inside or outside the UASI-designated urban areas. As in previous fiscal years, the NSGP-Urban Area (NSGP-UA) is a competitive grant program that funds nonprofits located in UASI-designated areas. Under the NSGP-State (NSGP-S), each state will receive an allocation for nonprofits located outside of the FY 2022 UASI-designated areas.
Objectives

The objective of the FY 2022 NSGP is to provide funding for physical and cyber security enhancements and other security-related activities to nonprofit organizations that are at high risk of a terrorist attack. The NSGP also seeks to integrate the preparedness activities of nonprofit organizations with broader state and local preparedness efforts.

Priorities

Given the evolving threat landscape, DHS/FEMA has evaluated the national risk profile and set priorities that help ensure appropriate allocation of scarce security dollars. In assessing the national risk profile for FY 2022, one area attracts the most concern under the Non-Profit Security Grant Program:

1. Enhancing the protection of soft targets/crowded places.

Likewise, there are several enduring security needs that crosscut the homeland security enterprise. The following are second-tier priorities areas that help recipients implement a comprehensive approach to securing communities:

1. Effective planning;
2. Training and awareness campaigns; and
3. Exercises.

Funding for NSGP is limited and applicants will be prioritized in the following manner:

1. Ideology-based/Spiritual/Religious
2. Educational, including childcare facilities
3. Medical
4. Other

Application review will be in coordination with the Urban Area Security Initiatives (UASI) working groups.

Applicant Eligibility Criteria

Eligible nonprofit organizations are those organizations that are:

1. Described under section 501(c)(3) of the Internal Revenue Code of 1986 (IRC) and exempt from tax under section 501(a) of such code.
   - The Internal Revenue Service (IRS) does not require certain organizations such as churches, mosques, and synagogues to apply for and receive a recognition of exemption under section 501(c)(3) of the IRC. Such organizations are automatically exempt if they meet the requirements of section 501(c)(3).
   - For organizations that the IRS requires to apply for and receive a recognition of exemption under section 501(c)(3), documentation of the organization’s exemption status must be submitted in the application.
Refer to links below for additional information:

2. Able to demonstrate, through the application, that the organization is at high risk of a terrorist attack.

3. Located within one of the FY 2022 UASI-designated areas (Tampa, Orlando and Miami/Fort Lauderdale).

NSGP-S: Eligible nonprofit organizations located outside of the FY 2022 UASI-designated areas may apply to the  SAA to receive funding only under the NSGP-S. Nonprofit organizations can apply for both NSGP-UA and NSGP-S funding for up to 3 sites per organization. For additional information on NSGP eligibility criteria, please refer to the FY 2022 Notice of Funding Opportunity (NOFO).

*An application submitted by an otherwise eligible non-federal entity (i.e., the applicant) may be deemed ineligible when the person that submitted the application is not: 1) a current employee, personnel, official, staff or leadership of the non-federal entity; and 2) duly authorized to apply for an award on behalf of the non-federal entity at the time of application. Further, the Authorized Organization Representative (AOR) must be a duly authorized current employee, personnel, official, staff or leadership of the recipient and provide an email address unique to the recipient at the time of application and upon any change in assignment during the period of performance. Funding Restrictions and Allowable Costs
All costs charged to awards covered by this NOFO must comply with the Uniform Administrative Requirements, Cost Principles, and Audit Requirements at 2 C.F.R. Part 200, unless otherwise indicated in the NOFO, the terms and conditions of the award, or the Preparedness Grants Manual. This includes, among other requirements, that costs must be incurred, and products and services must be delivered, within the period of performance of the award. See 2 C.F.R. § 200.403(h) (referring to budget periods, which for FEMA awards under this program is the same as the period of performance).

Federal funds made available through this award may be used for the purpose set forth in this NOFO, the Preparedness Grants Manual, and the terms and conditions of the award and must be consistent with the statutory authority for the award. Award funds may not be used for matching funds for any other federal awards, lobbying, or intervention in federal regulatory or adjudicatory proceedings. In addition, federal funds may not be used to sue the Federal Government or any other government entity. See the Preparedness Grants Manual for more information on funding restrictions and allowable costs.

Nonprofit Security Allowable Activities
Allowable NSGP costs are focused on security related activities. Funding can be used for security related planning; training; exercise; contracted security personnel and the acquisition and installation of security equipment on real property owned or leased by the non-profit at the time of the application. For further guidelines on allowable and unallowable NSGP costs, please refer to the Preparedness Grants Manual, Appendix C.

Planning
Funding may be used for security or emergency planning expenses and the materials required to conduct planning activities. Planning must be related to the protection of the facility and the people within the facility and should include consideration of access and functional needs considerations as well as those with limited English proficiency. Planning efforts can also include conducting risk and resilience assessments on increasingly connected cyber and physical systems, on which security depends, using the Infrastructure Resilience Planning Framework and related CISA resources.

Examples of allowable planning activities include, but are not limited to:

- Development and enhancement of security plans and protocols;
- Development or further strengthening of security assessments;
- Emergency contingency plans;
- Evacuation/Shelter-in-place plans;
- Coordination and information sharing with fusion centers; and
- Other project planning activities with prior approval from FEMA.
Training/Exercise
Training conducted using NSGP funds must address a specific threat and/or vulnerability, as identified in the nonprofit organization’s IJ. Training should provide the opportunity to demonstrate and validate skills learned as well as to identify any gaps in these skills. **Proposed attendance at training courses and all associated costs using the NSGP must be included in the nonprofit organization’s Investment Justification (IJ).**

Training/Exercise costs are limited to an organization’s security personnel staff, members, and volunteers only.

- Employed or volunteer security staff to attend security-related training within the United States;

- Nonprofit organization’s employees, or members/congregants to receive on-site security training.

Allowable training topics are limited to the protection of critical infrastructure key resources, including physical and cybersecurity, target hardening, and terrorism awareness/employee preparedness such as Community Emergency Response Team (CERT) training, indicators and behaviors indicative of terrorist threats, Active Shooter training, and emergency first aid training. Additional examples of allowable training courses include: “Stop the Bleed” training, kits/equipment, and training aids; First Aid and other novice level “you are the help until help arrives” training, kits/equipment, and training aids; and Automatic External Defibrillator (AED) and AED/Basic Life Support training, kits/equipment, and training aids. Overtime, backfill, travel expenses, weapons, and weather-related trainings are not allowable.

Contracted Security Personnel
Contracted security personnel are allowed under this program only as described in the NOFO and Manual and comply with guidance set forth in IB 421b and IB 441. NSGP funds may not be used to purchase equipment for contracted security. The recipient must be able to sustain this capability in future years without NSGP funding, and a sustainment plan will be required as part of the closeout package for any award funding this capability. **The Investment Justification must include specific details about any proposed contract security personnel costs, to include the proposed contracted security costs described in the Investment Justification should include the hourly/daily rate, the number of personnel and anticipated number of hours/days the personnel will work over the course of the period of performance.**

- NSGP funds may not be used to purchase equipment for contracted security personnel.
- Contract security personnel activities must be competitively procured. Procurement via sole source for contract security personnel is not allowable.
- Contract security personnel costs that exceed fifty percent (50%) of the Federal request amount will require a justification, which must be submitted to the SAA along with the Investment Justification.
- The subrecipient must be able to sustain this capability in future years without NSGP funding, and a sustainment plan will be required as part of the close-out package.
Equipment
Equipment costs are allowed under this program only as described in the NOFO and the accompanying appendix in the Preparedness Grants Manual. Allowable costs are focused on target hardening and physical security enhancements. Applicants should analyze the costs and benefits of purchasing versus easing equipment, especially high costs items and those subject to rapid technical advances. Large equipment purchases must be identified and explained. **Proposed equipment costs associated using the NSGP can only be from the allowable categories provided above and must be included in the nonprofit organization’s Investment Justification.**

Allowable equipment under the NSGP is limited to select items in the following categories on the Department of Homeland Security [Authorized Equipment List](#).

**Effective August 13, 2020,** FEMA recipients and subrecipients **may not** use any FEMA funds under open or new awards to:

1. Procure or obtain any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology of any system;

M&A activities are costs defined as directly relating to the M&A of the grant, such as financial management and monitoring, etc. Proposed M&A costs associated using the NSGP must be included in the nonprofit organization’s Investment Justification.

This is a COST REIMBURSEMENT grant program, therefore, if your organization is selected to receive funding, the organization is responsible for ordering and purchasing eligible equipment. Those eligible reimbursement expenses should be submitted to the SAA with copies of purchase orders, invoices, and copies of the front and back of the cancelled checks, or other proof of payment deemed acceptable by the SAA.

How Do I Prepare?

NSGP – UA and State Application Review Process
NSGP applications are to be submitted by nonprofit organizations to their respective SAA. Applications will be reviewed through a two-phase state and federal review process for completeness, adherence to programmatic guidelines, feasibility, and how well the Investment Justification (project description and justification) addresses the identified risk(s). The SAA will make recommendations to DHS/FEMA based on their target allocation and according to the chart listed in the NSGP-S process subsection.

Applicants will be selected from highest to lowest scored within their respective state/territory until the available state target allocation has been exhausted. In the event of a tie during the funding determination process, priority will be given to nonprofit organizations that have not received prior year funding, then those prioritized highest by their SAA. DHS/FEMA will use the results to make funding recommendations to the Secretary of Homeland Security. All final funding determinations will be made by the Secretary of Homeland Security, who retains the discretion to consider other factors and information in addition to DHS/FEMA’s funding recommendations.

☐ IJ scores should not be skewed toward giving applicants in a state an advantage during the Federal review process.
  ○ Scores should not be distributed on a bell curve, with a handful of high scoring applicants, a handful of low applicants, and most scores falling within the middle.

☐ Scoring of the IJ by the SAA and Urban Area Working Group should reflect any concerns with the application.
  ○ If an application does not directly answer a question, the scoring should reflect a reduced score.
  ○ Any applicant that fails to clearly link requested funding in Section IV-Target Hardening to its vulnerability Assessment should receive a reduced score.
  ○ Any section that has a narrative field blank should receive a reduced score.

Please refer to the FY2022 Notice of Funding Opportunity for additional information regarding eligibility and application review.
Applicants that fail to identify one or more specific core capabilities in IJ Section VII-Outcomes, should receive a reduced score.

- Applicants should not be scored and recommended for funding for the following reasons:
  - Failure to provide a vulnerability assessment.
  - Failure to provide a mission statement.
  - Not a 501© (3) designated organization.
  - Submission of application past the SAA established deadline.

- Applications can be scored, but should not be recommended for funding for the following reasons:
  - Multiple unallowable projects listed on the IJ.
  - Past performance issues.

- Ensure nonprofit applicants are aware they must comply with all award terms and conditions.
  - Award term & conditions pass down from the non-Federal Entity (i.e., the SAA) to subrecipients (nonprofits), per 2 C.F.R. 200.332.
  - Although award terms and condition are not finalized until an award is made to the SAA, they vary little from year to year.

  *Refer nonprofit organization to the FY 2022 NSGP award terms and conditions.*

- All applicants that require a post-award scope and budget change requires approval and may be denied by FEMA without compelling justification given the competitive nature of the grant program.
  - Any proposed changes must be supported by the vulnerability assessment.
  - Nonprofits selected for award that subsequently renovate their facilities to affect the vulnerability Assessment upon which the application as based will not be approved for a scope change.

- If an organization was previously awarded the NSGP grant, they are eligible to apply for an NSGP grant in FY 2022.

- Given the competitive nature of the grant program, no post award-scope changes are allowed due to a change in the facility location.

- A nonprofit may not move any federally installed equipment to a location.

- The attached application Signature Page must be signed by the Applicant’s Authorized Representative. An application submitted by an otherwise eligible non-federal entity (i.e., the applicant) may be deemed ineligible when the person that submitted the application is not: 1) a current employee, personnel, official, staff or leadership of the non-federal entity; and 2) duly authorized to apply for an award on behalf of the non-federal entity at the time of application. Further, the Authorized Organization Representative (AOR) must be a duly authorized current employee, personnel, official, staff or leadership of the recipient and provide an email address unique to the recipient at the time of application and upon any change in assignment during the period of performance. **Consultants or contractors of the recipient are not permitted to be the AOR of the recipient.**
The SAA will base the ranking on the SAA’s subject-matter expertise and discretion with consideration of the following factors:

- **Need**: The relative need for the nonprofit organization compared to the other applicants; and
- **Impact**: The feasibility of the proposed project and how effectively the proposed project addresses the identified need.
